

PARALLEL WORKSHOP

Exploring the depths and shallows of Land-Sea Interaction in MSP

Session leader:
Andrea Morf, NORDREGIO

Presenters and table hosts:
The case study teams

The work in the workshops will be organized in discussions proposing the following topics:

1. What is Land-Sea interaction - first results on the concept and document analysis from Nordregio.
2. What are important Land-Sea interaction issues - mapping beyond the Pan Baltic Scope project.
3. Exploring Land-Sea interaction across borders - the Finland-Aland-Sweden case.
4. Exploring Land-Sea interaction in the Riga bay.
